

# LiNO RAMBLE

The overarching idea behind Lino Ramble's range of wines is working with varieties which require minimal inputs in the vineyard and winery. We want our wines to be approachable, medium bodied, structural with loads of texture and have a sense of place given that they are predominantly single vineyard wines

## 2021 Slinky

In the pursuit of grooving to our own beat, we just had to do our own bone-dry white vermouth.

Served chilled as an aperitif, over ice with soda water as a refreshment after a long day on the tools or in your favourite dirty dry martini or negroni. Accept no substitute!

## VINTAGE SUMMARY

2020 was a hot dry vintage in McLaren Vale. Strong winds during spring resulted in consistently poor flowering and fruit set. As such, yields were low. Vintage started and finished in a heart beat but fruit quality and flavour intensity was exceptional.

## WINEMAKING

We distilled a portion of the White Frontignac base wine at McLaren Vale Distillery and used the spirit to steep the botanicals in. wormwood, aniseed myrtle, finger lime and orange peel were used.

We then added the spirit to the base wine and allowed to infuse for 6 months before hand bottling by Team Ramble.

**WINEMAKER :** Andy Coppard

**VITICULTURALIST:** John Harvey

**VINEYARD:** Slate Creek, Willunga.

## VARIETY

100% White Frontignac

## GEOLOGY

Tindelpina Shale Member: Laminated, pyritic, black shale and dolomite.

## ELEVATION

115m above sea level

- Alcohol 18.5%
- pH: 3.49
- TA: 5.2 g/L
- 500mL
